

COVID-19 Update Confirmed Outbreak

July 24, 2023

Dear residents, families, and staff,

The Medical Officer of Health's office declared an outbreak at Evanston Summit today. Two residents and two staff have tested positive for COVID. Residents and staff who tested positive are isolating. We are monitoring residents very closely who are experiencing symptoms.

Precautionary measures we have taken to minimize risk of spread, in addition to those already implemented over the last week, include:

- Placing the resident who is symptomatic on isolation
- Ensuring all the staff caring for the resident wear appropriate personal protective equipment
- Rapid and/or PCR testing for residents and staff, as appropriate, based on protocols

Please remember that COVID-19 symptoms are similar to the symptoms of many other viruses, including respiratory infections and influenza. In a congregate living and continuing care environment like ours, it is not unusual for two or more individuals to exhibit symptoms such as fever, cough, diarrhea, runny nose, etc.

Residents, if you are not feeling well please notify the concierge immediately. Please refrain from going out in public unless absolutely necessary, and wash your hands frequently with soap and warm water.

Please be extra careful in the coming days to stay safe. You are welcome to direct questions to Marjory Nazar, Site Manager, by phone at 587-538-7511 or email info@covenantliving.ca.
